WHAT OUR PATIENT SURVEYS HAVE REVEALED...

VSP members consistently tell us that they prefer to get their eye care and vision correction needs met by their VSP Network Doctor—someone they know and trust.

"I not only prescribe Unity BioSync Contact Lenses to my patients—I wear them every day myself! I absolutely love them."

– Dr. April Oliver, O.D.

"I've suffered from dry eyes for years and have never been able to wear contact lenses without discomfort. But these contact lenses feel so great, I can't even tell I'm wearing them!"

– Crystal V.

"My last 'dailies' usually dried out on me by 5 PM. Then my vision would become cloudy—and I'd see halos. I'd have to put in a new pair in the evening if I wanted to go out. With BioSync Contact Lenses, I haven't had any of those issues! They easily last me until 11 PM at night..."
